## WILLIAMSON PENICO.

### Out Pullo-mom-lig with JFEEQ

Any intringment on same, we will prosecute to the full law.

We Gua anile this seed to give a more even flow than have perfect lontrol of the sink at all times.

#### Trade Discount.

We allow a discount of fifty per cent from the list price to the trade on every style except the 'Special' which sells for \$8.00 per dozen net.

Terms
Our terms are thing to

Our terms are thirty days net, or three per cent, ten days.

WILLIAMSON PEN CO., Inc.

Janesville, Wis., U. S. A.

# . Few Hints to Users of Fountain Pens

## MOST OF THESE HINTS APPLY TO ANY MAKE

BEFORE FILLING. If your fountain pen is new unscrew the section, or if a "Screwless" pull out the plug and put at least one filler of up the feed and remove any grease that has adhered to it. alcohol into the pen barrel and shake out through the feeder in order to soak

Your pen will give better satisfaction by so doing.

hubbles of air which, should they appear, must be broken to obtain an even flow of ink. A broom straw pushed into the barrel is the handlest means of breaking them. Often times air-bubbles remain below the body of within three-quarters of an inch of the end, placing the end of the glass dropink and the barrel seems quite full after putting in but little. The best way to remedy this is to empty the barrel and re-fill. per against one side of the barrel while forcing in the ink in order to avoid TO FILL. Unscrew the section or pull out plug as before and fill to

Use only the best writing fluid.

neglect to do this a drop of the ink is liable to exude from the joint at closing. are wet they should be wiped dry with tissue paper or a clean cloth. CLOSING THE PEN. If the threads on the end of the harrel

tipped down. The point should never be down except when the pen is on the paper for writing. The pen should be placed point up when in the pocket with the cap on, and when at rest in the hand or on the desk. The point should be held up when removing the cap or putting it on and in handling for gravity which is liable to draw the ink out of the feed whenever the pen is the pen generally. CARE OF THE PEN WHEN NOT IN USE. Look out

CAPS. DON'T JERK THE CAP OFF, give it a slight twist whenever putting it on or taking it off. The holes in the cap should be kept open when in the pocket or in any warm place.

In removing the cap do not cover up these holes with the fingers.

If the pen is kept on the desk away from warmth the holes in the cap should be filled with a little wax so as to prevent the pen from drying up which does not happen when in the pocket.

is pulled off with a jerk. In case the pen is used in this manner much care should be taken in removing the cap as the ink is liable to be drawn out of the barrel if the cap

> with the paper, though many times it is necessary to wet a new pen and feed first, or urge the ink into the feed by jarring the pen slightly. THE FIRST USE. The pen should write instantly upon contact

#### PECULIAR TRAITS

heed the warning, and fill at once. When a pen is nearly empty it is apt to flow more freely; in case it does,

drop of ink on hist contact with paper. A new pen will sometimes empty every drop of ink you have placed in the barrel. This is due to the fact that there is grease of some kind on the feed, and may be avoided by shaking alcohol through the feed as we instructed. When a pen is first filled a bit of imprisoned air sometimes drives out a

When a pen is nearly empty it is more liable to leak when in the pocket.

Fountain pens, like every piece of delicate mechanism should be kept clean. More complaint is due to the fact that users allow the pen to get satisfactory and should be done once a week. clogged. We suggest taking the section or plug that holds the point and feed, and place the same under the water faucet which will clean the pen very

writing after being chilled. A pen is liable to flood when placed in a warm hand in the position for  $\Lambda$  pen is more liable to give users trouble in cold weather than in warm

A pen will give better satisfaction after being used a week than when new

to the air as it will dry and clog up. Keep the cap on at all times when not DON'T leave the cap off from a fountain pen and leave point exposed

DON'T remove the pen point from the section or plug as it is dirheult to replace them properly and a correct adjustment is necessary and should be done by an expert.

#### "AUTO-NOM-IC SCREWLESS"

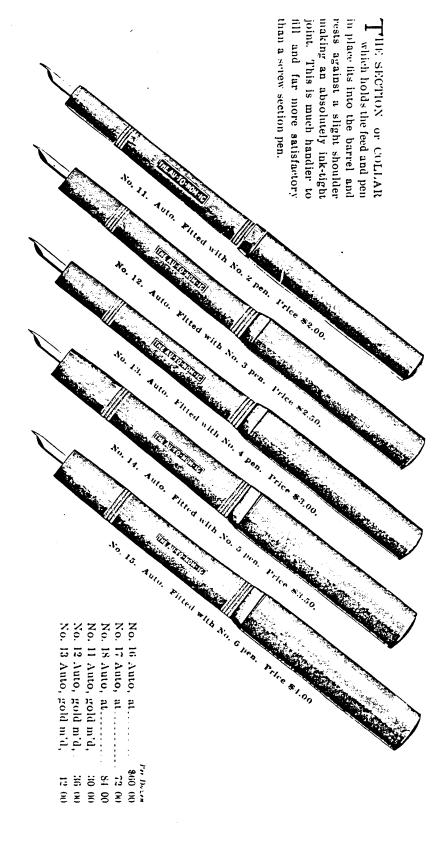

To fill our "Auto-nom-ic Screwless" fountain pen, grip the pen point and feed with the thumb and first finger and twist slightly at the same time pulling out the plug. Replace plug in the same manner. This is a great improvement over other "Screwless" pens on the market

or LEAK, NOT FLOOD these Pens WILL We GUARANTEE that Fitted With Our The "New Joint" Screw Section UTO-NOM-IC (Double Channel) No. 11. A. J. Break Will No. 2 Near. Price \$2.00. N. J.
